

6/12V DIAGNOSTICS LOAD TESTER

WET MF EFB AGM GEL

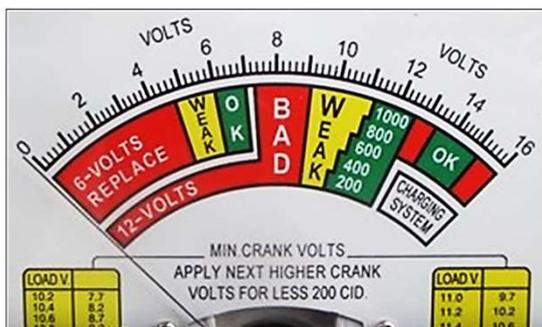

Type: **Topcore LT**

Barcode: 8436594880872

This is a **real load tester** for professional battery diagnostics and performs real discharges to batteries with about 100A. Measures battery voltages under or without a load and it is composed by an analogic voltmeter and a high power shunt, connected by a manual switch. To operate safely, ensure you respect all safety instructions and personal precautions described in the product manual.

Designed and built according the testing latest state of the art techniques, complying with VDE0411/EN61010/IEC1010 and the concerned European guidelines for electronic gauges

Analog display system

Technical Specifications

Voltage range:	DC 0V to 16V
Load current:	100A (±5% at 13,2V)
Technologies:	Lead-acid batteries: WET, MF, EFB, AGM & GEL
Batt. CCA range:	200A to 1000A
Relative humidity:	Max. 80% non-condensing

Functions:

- Open circuit voltage inspection
- Load test
- Starter system operation test
- Charger system operation test

Safety protections:

- Connection/disconnection switch isolation

Box content:

- Tester with cables (battery clamps) and carrying handle
- User manual
